### DESCRIPTION AND PURPOSE OF CHANGE:

To meet current customer demands, Würth Elektronik will add a marking on the described multilayer inductors (i.e. WE-MK A-Type of size 0402 whose inductance value is  $\leq 10\text{nH}$ ).

All products with date code 2019-02-18 or later, will be affected by this change.

There will be no change in form, fit, function, quality or reliability of the product.

### DETAIL OF CHANGE:

After the change the corresponding inductors will include double side marking as below:

The marking has the purpose of showing the internal structure of the coil. The coil's plane is parallel to plane containing the markings. Therefore, the orientation of the coil inside the inductor is fixed.
